MEMORANDUM TO ALL UNDERGRADUATE PROGRAM STUDENTS

RE: READINESS ASSESSMENT SURVEY FOR A FLEXIBLE LEARNING ENVIRONMENT

For Academic Year 2020-2021, the School shall implement flexible learning as a delivery mode of teaching to its students.

Flexible learning as defined by the Commission on Higher Education (CHED) is as follows:

- the design and delivery of programs, courses and learning interventions that address the learners' unique needs in terms of place, pace, process and products of learning;
- uses digital and non-digital technology; and
- covers both face-to-face/in-person learning and out of classroom learning.

Pursuant to this, the School is launching the Readiness Assessment Survey for a Flexible Learning Environment. The online survey can be accessed through our website or through this survey link: <https://forms.gle/nocpjD28GXYoepqr9>. For students who cannot accomplish the survey online, we will work with the Student Service Center on how the paper form of the survey can reach them.

The survey questionnaire consists of the following parts:

- Part 1 - Student Information
- Part 2 - Technology Access
- Part 3 - Student's Adaptability for Flexible Learning

Deadline of survey accomplishment is on **Friday June 12, 2020 11:55 p.m.**

I highly encourage you to participate in this survey. The results will help the School and its faculty better understand your abilities, experiences and needs that will support your education in the "New Normal" for the next Academic Year.

Thank you and may God bless us all!

GINA T. SANCHEZ
Executive Secretary to the President

cc: Discipline and Department Heads
Faculty of Undergraduate Programs
